### **What is an extending school?**

It's a school that recognises it can't work alone in helping children and young people reach their potential. It works in partnership with other agencies interested in the outcomes for children and young people. In working together the schools aim to meet the school's objectives as well as helping to meet the wider needs of the children, young people, their families and the community.

### **The Five Core Elements**

- A Varied Menu of Activities (including study support, play/recreation, sport, music, arts and crafts and other special interest clubs, volunteering and business and enterprise activities), in a safe place, for primary and secondary schools
- Childcare: 8:00am — 6:00pm, 48 weeks a year for primary schools
- Parenting Support including family learning
- Swift and Easy Access to targeted and specialist services such as speech and language therapy
- Community Access to Facilities including adult learning, ICT and sporting facilities.
